## PROFESSIONAL SUMMARY

---

Full-Stack Software Engineer with a strong focus on designing and developing scalable web applications. Experienced in modern Java and JavaScript ecosystems, backend API development, database design, and deployment workflows. Founder of FSTechSpace, a technology brand focused on software development, digital solutions, product design, and technology research. Passionate about building high-performance applications and creating impactful digital experiences. Additional expertise includes UI/UX design, graphic design, and digital content creation.

## TECHNICAL SKILLS

---

### Frontend Development

- Next.js
- TypeScript
- JavaScript
- Tailwind CSS

### Backend Development

- Node.js
- Express.js
- RESTful APIs
- SpringBoot
- JWT Authentication
- API Integration

### Database Technologies

- PostgreSQL
- Database Design
- SQL

### Software Engineering

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- Responsive Web Design
- Software Architecture

- Problem Solving

#### Design & Creative Tools

- Figma
- Canva
- Adobe Photoshop
- Adobe illustrator
- GIMP
- Inkscape
- Blender

## PROJECTS & EXPERIENCE

---

### Founder & Full-Stack Software Engineer

FSTechSpace | 2025 – Present

- Founded and managed a technology-focused brand specializing in software development, digital solutions, and technology research
- Design, develop, deploy, and maintain modern web applications
- Lead project planning, system design, branding, and product development initiatives
- Create marketing materials, visual assets, and digital content for business growth
- Research emerging technologies and implement best practices in software engineering

#### Selected Ongoing Projects:

##### Analytics Platform

- Building a platform for visualizing and analyzing real-time market data through interactive dashboards

##### Skincare E-Commerce Platform

- Developing an online store with product management, secure checkout, and responsive user experience

##### Live News Feed Application

- Building a platform that aggregates and displays real-time news content from multiple sources

##### Mini Framework

- Designing a lightweight development framework to simplify application architecture and improve developer productivity

##### Real-Time Chat Application

- Developing a scalable messaging application with real-time communication features

## EDUCATION

---

### Bachelor of Science in Statistics and Computer Science

Technical University of Mombasa

#### Relevant Coursework

- Data Structures & Algorithms
- Database Systems
- Software Engineering
- Web Development
- Computer Networks

#### CERTIFICATIONS & TRAINING

---

- ICP Canister Development Training
- LinkedIn

#### ACHIEVEMENTS

---

- Founded and actively manage FSTechSpace
- Developed multiple full-stack applications using modern web technologies
- Built and deployed independent software projects from concept to production
- Continuously expand expertise through self-directed learning certifications, and practical development experience
